MESSAGE FROM THE VICE-CHANCELLOR AND PRINCIPAL

As you embark on this next chapter, you are faced with the difficult but important decision of where you will study and what you will choose to study. As you carefully weigh your options, I assure you that the University of Johannesburg (UJ) is one of the most vibrant and pulsating universities in South Africa. Although UJ is a relatively young institution in the South African higher education landscape, we have soared to heights untold in recent years. Our history is rich and represents a long legacy. In recent years, our deliberate positioning in the Fourth Industrial Revolution (4IR) and our emergence as a pan-African institution have charted this path. Additionally, we have placed an emphasis on research that addresses the United Nations' Sustainable Development Goals (SDGs) and contributes to policy development. Our learning revolution, now, is one defined by our societal impact in this endeavour. Our goal is not only to impart knowledge but also to empower individuals to contribute meaningfully to society. We are a dynamic University, actively shaping the future around us.

We are committed to your academic and intellectual development with a focus on preparing you for the future. The world around us is rapidly changing and so too are the requirements for success. At UJ, we arm you with the skills and ability to participate and thrive in the 4IR. More so, we do this with an emphasis on societal impact and sustainability. This is grounded in the belief that universities are not only centres of learning but are also powerful agents for change within their communities and beyond.

At UJ, you will encounter the finest academic minds from diverse backgrounds, spanning across the world, who will contribute to your academic success. In recent years, UJ has emerged as a competitive player, not only in South Africa but also on the continent, and has risen significantly in these rankings. UJ has demonstrably excelled in teaching, learning, research, and carving our footprint in recent years. We have done so as an academic community.

Our priority is maximising your student experience. The transition to University can seem daunting but UJ has systems and structures in place to ensure that this is a seamless process. For example, UJ's First Year Experience Programme provides support and development opportunities, while robust academic and tutor support programmes ensure a seamless journey during your university studies. We offer dynamic first-year courses, ranging from African Experiences to Artificial Intelligence (AI) to an introduction to the SDGs, aimed at giving

BOODSKAP VAN DIE VISEKANSELIER EN REKTOR

Soos jy met hierdie volgende hoofstuk begin, staan jy voor die moeilike maar belangrike besluit van waar jy gaan studeer en wat jy sal kies om te studeer. Terwyl jy jou opsies noukeurig opweeg, verseker ek jou dat die Universiteit van Johannesburg (UJ) een van die lewendigste en polsendste universiteite in Suid-Afrika is. Alhoewel UJ 'n relatief jong instelling in die Suid-Afrikaanse hoërondewyslandskap is, het ons oor die laaste paar jaar tot ongekende hoogtes gestyg. Ons geskiedenis is ryk en verteenwoordig 'n ryk nalatenskap. Onlangs het ons doelbewuste posisionering in die Vierde Industriële Revolusie (4IR) en ons opkoms as 'n Pan-Afrikaanse instelling hierdie pad uitgestippel. Daarbenewens plaas ons klem op navorsing wat die Verenigde Nasies se Volhoubare Ontwikkelingsdoelwitte (VOD's) aanspreek en bydra tot beleidsontwikkeling. Ons leerrevolusie, is nou, een wat gedefinieer word deur ons sosiale impak in hierdie strewe. Ons is 'n dinamiese Universiteit wat die toekoms aktief om ons vorm.

98 Why you should study at UJ

Applying at UJ

Our Future. Reimagined.

The University of Johannesburg offers internationally respected and accepted certificates, diplomas and degrees at undergraduate and postgraduate level.

With at least 178 undergraduate programmes to choose from, you can take your pick. These programmes are offered in the following eight faculties including a college*:

- Art, Design and Architecture
- Business and Economics (College*)
- Education
- Engineering and the Built Environment
- Health Sciences
- Humanities
- Law
- Science

To be able to gain access to a faculty* and to a specific programme, applicants are required to have the appropriate combination of recognised National Senior Certificate (NSC) or Independent Examinations Board (IEB) subjects as well as certain levels of achievement in these subjects as set out in this prospectus.

Learners who have not written the National Senior Certificate (NSC) or Independent Examinations Board (IEB) final examinations, but fall in the categories listed below will be referred to the faculties* for faculty-specific selection:

- ACE School of Tomorrow
- NCV, NASCA, SC(a)
- N3/N4/N5/N6 results
- Any other final school-leaving certificates not aforementioned.
- PsyCaD evaluation and NBT results may be required.

Note: Due to limited space, fulfilling all the minimum admission requirements does not guarantee acceptance into a programme.

Provisional admission is based on the final Grade 11 results for applicants still in matric, as well as final Grade 12 results for applicants who have already completed matric. Final admission is based on the final Grade 12 results.

Only once you have applied and you have your reference/student number will you be able to investigate bursaries that may cover your studies.

GENERAL INSTITUTIONAL APPLICATION RULES

NATIONAL & INTERNATIONAL APPLICANTS

Application submission and responsibility

With POPIA in place, the university requires all applications to be completed by the applicant themselves. Errors arising from applications completed by parents, guardians, or third parties can negatively impact the selection process. Applicants are responsible for the accuracy of the data submitted via the university's application process.

Application ranking

The university uses a ranking system when making final selections in January, where all applicants are ranked from highest to lowest based on their APS regardless when grade 12 was completed or when the applicant has applied at the university.

Applying for extended programmes

Extended programmes are strictly limited to first-time entering applicants. These are candidates with no previous studies at NQF Level 6 or higher.

Mature age exemption

Applying to study using a mature age exemption does not guarantee admission. Applicants must still meet the minimum entry requirements set by the university.

Qualification limitations

The Faculty of Law does not accept NCV, NASCA and ASC, and the GED (General Education Development) is not accepted by the university for selection or admission across all faculties.

South African Qualifications Authority (SAQA)

International applicants are required to submit a South African Qualifications Authority (SAQA) certificate of evaluation for all foreign qualifications. SAQA verifies the authenticity of the documents, confirms that the issuing institutions are accredited in their respective countries, and ensures that the qualifications form part of the official national qualification framework. Once verified, SAQA determines the appropriate placement of the qualification on the South African National Qualifications Framework (NQF) for admission purposes.

Transfer applicants

All applicants, including those transferring from other higher education institutions, must apply using UJ's online application system.

Selection for undergraduate programmes is based on meeting the minimum entry requirements based on final Grade 12 results as well as meeting faculty requirements based on the academic merit of the institution the applicant is transferring from. An official

academic record and final school leaving results must be submitted for selection purposes.

Previous studies must be declared upon application:

- a regardless of whether the application is in the same or in a different field of study;
- b regardless of whether the studies were cancelled prior to completion; and
- c should the applicant wish to carry over any credits.

Two study choices

Applicants applying for undergraduate (diplomas or degrees) or postgraduate (advance diplomas, postgraduate diplomas, honours, masters or PhD) studies are allowed only two academic application choices. The university will not make any amendments, modifications, or cancellations to academic application choices once the application is processed.

APPLICATION PROCESS

ONLINE APPLICATION

Please note the following:

- No application fee will be charged for online and paper based applications.
- If you have previously applied and have a UJ student number, please call the UJ Call Centre (011 559 4555) to ensure that your cell number and email address are captured on our student database. This will ensure that you receive a PIN number to complete the online application process.
- An applicant must go to www.uj.ac.za/Apply and select 'Apply' to complete an application.

PAPER APPLICATIONS

- Step 1: Select your qualification study choices 1 and 2. (Ensure you meet the admission requirements as set out in this prospectus.)
- Step 2: Submit your application to any of UJ's four campuses. Please allow for three weeks before checking on the status of your application. If your application meets the necessary requirements and there is space in your selected programme, you will be informed on whether your application has been successful or not.

Please note that all official communication will be sent via email. You may also go to the UJ website to check your application status using your ID or student number.

NB: Registration is dependent on final admission in January.

DISCLAIMER: In order to be considered for selection for a programme, an applicant is required to comply with the programme's minimum admission requirements in respect of the total APS as well as subject specific requirements (as determined per programme).

Compliance **does not guarantee a place**, as the University has a specific number of places as approved by the Department of Higher Education and Training for new undergraduate first years.

UJ Arts & Culture is a distinguished division within the Faculty of Art, Design & Architecture (FADA) at the University of Johannesburg. Within this division, there is a profound commitment to curating and presenting exceptional artistic programmes that seamlessly align with the University's overarching vision. This vision aspires for UJ to be a globally recognised institution deeply rooted in Africa and actively contributing to the shaping of our shared future.

This unwavering commitment spans across all four UJ campuses, offering an extensive array of opportunities for students, faculty members, alumni, and the broader community to engage with both emerging and established Pan-African and international artists. These engagements encompass a wide spectrum of artistic disciplines, that facilitates a rich and diverse cultural experience for all participants.

One of our most prized assets is the globally renowned UJ Choir, an institution that not only elevates the standards of musical excellence within our university but also significantly enriches the overall student experience. Its illustrious track-record is testament to its invaluable contribution to UJ's cultural profile.

Within our division, you will also discover the UJ Arts Academy, a hub for a comprehensive range

Centre for Student Health and Wellness

The University has four centers, one on each campus. Professional nurses provide services five days a week at each Centre, while sessional doctors visit once weekly for serious problems referred by Professional nurses. The Centre primarily offers primary health care to students, focusing on acute illnesses, acne treatment, mental health examinations and management, and referrals to PsyCaD for counseling. Sexual reproductive health encompasses contraception distribution, STI screening and management, cervical cancer screening (Pap smear), pregnancy testing, and referral to safe abortion facilities. One of the essential services provided by the Centre is health promotion, which is done through campaigns, health expos, and on UJfm.

The center shares premises with an occupational health clinic for employees. Primary healthcare clinicians provide weekly family planning services for staff members, and emergency medical care when needed.

Our wellness section is led by a Wellness Specialist and supported by HIV counselors and Peer educators. HIV counseling and testing are provided, as well as the distribution of female and male condoms, lubricants, and dental dams. It includes a support group for students who have tested positive for HIV and are on the antiretroviral treatment program to provide care and support. The Wellness team is heavily involved in initiatives (cancer awareness, SRH, mental health, LGBTQI+ safe zone awareness) and uses different social media platforms. Regular residential visits are conducted to educate students about sexual reproductive health and risky behaviors and lifestyles affecting their health.

A residence is a community in which one meets a range of diverse students and may forge life-long friendships. In order to experience university life to its fullest, why not reside on campus? The University of Johannesburg offers students a wide selection of comfortable accommodation, which ranges from various types of residences to fully equipped apartments. Staying in a University of Johannesburg residence is an extension of your education, and you can benefit from all facilities and services, which are also sources of social enrichment, such as study centres, campus libraries, cafeterias, restaurants and sports facilities within easy walking distance of the lecture halls, life skills and peer tutoring programmes. Like-minded students from all over the country, who could all become your friends, will surround you. Apart from our academic programme, we offer extramural activities,

such as the first year concert, debate, poetry sessions, indigenous games, a choir festival, a play festival, community service, and many socially engaging activities to create a vibrant residence life.

If you would like to apply to stay on campus, please submit an online Residence Application. Applications must reach the University by 31 October. **You may only stay on the campus where you attend your studies.** An amount of R1220 residence deposit will automatically be charged to the student's account once he/she registers online.

Please note the academic admission to the University does not ensure automatic admission to a residence. The University will inform you via email, SMS or in writing, of the outcome of your residence application.

Day Houses

For purposes of bringing students together, providing educational opportunities beyond the classroom, recreational activities and life skills the University of Johannesburg established day houses as a support structure for students who are not living in UJ residences. The main objective of day houses is to create a platform that enhances academic excellence, the celebration diversity within the community, and holistic development of students.

Members of day houses enjoy all benefits that are enjoyed by residence students. Each day house has its own unique culture. You are welcome to join a day house of your choice.

BURSARIES

Merit bursaries

Academic merit bursaries are awarded annually on the grounds of exceptional academic achievement. This is determined according to marks obtained in the six best subjects (excluding LO) on your senior certificate. Your final senior certificate will determine your first year bursary. Bursaries for second and third year studies will be awarded according to the average obtained in the June and December University examinations.

Orange Carpet

The Orange Carpet rewards programme is a UJ initiative to further recognise top achievers. The objective of the campaign is to allow top-performing learners early conditional admission to the University as well as special benefits. To qualify for the Orange Carpet rewards programme, you must meet the relevant APS score per tier (see table). Your total APS is calculated by adding up the individual APS obtained in your six best final Grade 11/12 subjects, excluding Life Orientation (LO). You must meet the specific subject requirements for the programme you are interested in (for example, Physical Science is a requirement for a Bachelor of Mine Surveying Degree).

Final admission to the Orange Carpet initiative for applicants writing final Grade 12 other than the NSC or IEB, will be based on the discretion of the relevant faculty.

This initiative begins from February and closes with all undergraduate programmes on 31 October. Submit your application without delay or call Student Marketing for any enquiries: 011 559 6680.

TIER	Admission Point Score (APS)	Bursary Value of Tuition Fees*
Orange Carpet	37-39	50%
Orange Carpet Platinum	40-41	75%
	42	100%
	Higher than 42	100% + R5 485.00

** To qualify for the higher than 42+ bursary, you need at least 80% in your six best subjects (excluding LO) with a 90% in one of your subjects. All bursaries will be allocated by Student Finance between April and August in your first year of study.*

Only first-time undergraduate students who have never studied at any other tertiary institution qualify for the Orange Carpet benefits. Only South African and SADC citizens will be considered for the Orange Carpet status and benefits.

UJ Jenius Club

After first year registration, Orange Carpet members will become UJenius club members. To join or to keep UJenius Club membership for the 2nd, 3rd and final year of your undergraduate study, students need to have achieved a year average of 75% in the preceding year, on a full course load, and with no module below 70%.

UJenius club members will qualify for the following benefits:

At the Faculty of Art, Design and Architecture (FADA), we believe that art, architecture and design can make this world a better place. We are deeply invested in ensuring that our students learn to be proactive about finding and creating situations where they can put their knowledge, skills and values into practice.

We, the hashtag generation.

With the rise of the Internet and the strong presence of social media, we have become an interconnected society in which people from different cultures and beliefs can share ideas instantly. Therefore, it is important to us to incorporate the global art, design and architecture community into what and how we teach.

Creativity is embracing each other's differences.

FADA houses all the creative disciplines under one roof and with this we maintain a strong focus on sustainability and relevance; and engage actively with the dynamism, creativity and diversity of Johannesburg and the rest of the world. With nine academic departments, namely the Department of Architecture, the Graduate School of Architecture (GSA), the Department of Fashion Design, the Department of Graphic Design, the Department of Industrial Design, the Department of Interior Design, the Department of Jewellery Design and Manufacture, the Department of Multimedia, and the Department of Visual Art, we expand each of these fields beyond their traditional boundaries through internal and external collaborations. We also have two research centres: Visual Identities in Art and Design (VIAD), and the NRF South African Research Chair (SARChI) in South African Art and Visual Culture.

The Faculty is also home to UJ Arts & Culture, based on the Auckland Park Kingsway Campus (with cultural offices on the Doornfontein and Soweto Campuses), which runs two professional theatres and the UJ Art Gallery, and offers a dynamic range of public-facing performing and visual arts programmes for students and professionals.

Always on top of change.

FADA works closely with the industry to ensure that its professional programmes remain relevant and competitive. Our graduates are employed nationally and internationally in diverse areas of the industry, or work as freelance designers, architects or independent artists. Whatever their preference, they have been thoroughly prepared as professionals in the highly competitive fields of art, design and architecture through creative and entrepreneurial development, which are key elements in the programmes offered.

Disclaimer: Due to limited space, fulfilling all the minimum admission requirements does not guarantee acceptance into a programme.

ADMISSION REQUIREMENTS: National Certificate (vocational) (NCV)

Subject to institutional admission requirements, the minimum admission requirement to Bachelor's degree programme is a National Certificate (Vocational) Level 4 issued by the Council for General and Further Education and Training. The minimum legislative requirements for admission to a Bachelors' degree include the achievement of:

Engineering and the Built Environment

Disclaimer: Due to limited space, fulfilling all the minimum admission requirements does not guarantee acceptance into a programme.

The Faculty of Engineering and the Built Environment (FEBE) is one of eight faculties* at the University of Johannesburg, home to five schools, 12 departments and two technology stations. It offers both Engineering Technology and Engineering Science undergraduate and postgraduate programmes. In keeping with the University's comprehensive status, the Faculty is the first in South Africa to offer global education to a full range of professional engineering qualifications.

FEBE remains a leading provider of well-qualified and accredited engineers, technologists and technicians. Over the years, the Faculty has established strategic partnerships within the international higher education landscape and with key industry stakeholders. Operating within the dynamic and competitive higher education landscape, FEBE is innovative in its approach to teaching, learning, collaborative research, community engagement, international partnerships and remains at the cutting edge of technology. It is focused on the promotion of reflective and critical thinking, novel ways of problem-solving and believes in environmentally sustainable solutions.

Engineering broadly focuses on the creative application of scientific and technical knowledge to design, analyse, develop structures, machines, manufacturing processes, construction of works/systems for practical purposes or maximizing operations. An Engineer is one that analyses and innovates, while the Technologist will implement and develop and the Technician will install, commission, maintain and operate. Courses within the Faculty are best suited for learners who are creative thinkers, possess an inventive imagination with an aptitude for mathematics, science and technology, learners who enjoy discovering how things work and solving problems with logic and reason.

The Faculty of Engineering and the Built Environment is supported by the following Accreditation Bodies:

- Engineering and Engineering Technology Programmes: Engineering Council of South Africa (ECSA)
- Town and Regional Planning: South African Council for Planners (SACPLAN)
- Mine Surveying: South African Council for Professional and Technical Surveyors (PLATO)
- Construction Management: South African Council for Project and Construction Management Professions (SACPCMP) & South African Council for the Quantity Surveying Profession (SACQSP)
- Quality and Operations Management Programmes are not subject to accreditation by professional bodies.

Accreditation agencies generally align to international accords and in this way programmes listed by FEBE receive recognition internationally. ECSA is a signatory of the Dublin, Sydney and Washington Accord which provides international recognition for the Faculty's BEng and BEng Tech. Although the Faculty is relatively small, its accredited research output annually ranks among the highest in the country. Faculty members are continually involved in the writing, updating and editing of law books, in addition to the publication of various articles in law journals and papers at international conferences, for which they are responsible. The Faculty also edits the *Journal of South African Law (TSAR)*, which is celebrating 50 years of uninterrupted publishing this year, 1976–2026.

The Faculty annually awards the degrees BA (Law), BCom (Law), LLB, LLM and LLD. In addition to these degrees, the Faculty has a strong division for continuing education programmes that offers postgraduate and undergraduate diplomas, certificates and short programmes in specialised areas such as Tax Law, International Tax, Drafting and Interpretation of Contracts, Corporate Law, Criminal Justice and Forensic Investigation, Compliance, Money Laundering Control, Compliance Management, Board Governance, Legislative Drafting, Labour Law and Paralegal Studies. The Faculty of Law also has various research institutes and centres that are involved in new legislation and legal development. Students at the Faculty's three law clinics on the Witwatersrand and Soweto offer free legal advice to members of the public.

The Law Clinic is celebrating 45 years of serving communities and bringing access to justice.

A law degree offers many exciting and challenging career opportunities. The Faculty of Law's students are highly sought after in the legal and commercial worlds, and form part of a rich tradition and of a student body which is proud of its ties with a Faculty of excellence.

- The UJ Faculty of Law guarantees a unique first year experience to students; this includes taking each first year law student to visit the lower, high and constitutional courts.
- The UJ Faculty of Law enables every final year law student to complete the module Applied Legal Studies, which includes clinical work with real clients. The Faculty has the only purpose-designed and built law clinic in the country where students undertake applied clinical work.
- After completing a 3 year BCom (Law) or BA (Law) degree students can register for an LLB degree and will be able to complete this degree within a further 2 years, thus obtaining two qualifications within 5 years.

UJ is the only African university admitted to the highly respected consortium of 28 research-intensive universities in the world – Universitas 21

Furthermore, University of Johannesburg (UJ) Faculty of Law has cemented its position as a leading Law School in South Africa and Africa after the ranking results published in the Times Higher Education (THE) World University Rankings by Subject 2026.

With regard to undergraduate programmes, we are proud that UJ holds accreditation from the BCS: The Chartered Institute for IT (in the United Kingdom), for our BSc degree programmes in Information Technology. Our Actuarial Science programme is also accredited by the Actuarial Society of South Africa (ASSA). In 2020 we also obtained international accreditation for our Food Science programmes.

Our partnerships with prestigious institutions are testimony to the high esteem that our staff, students and programmes enjoy in the national and international community. Each year, several staff members and students receive national and international acclaim for research and other academic achievements on Postgraduate level. The Faculty is particularly proud that it has unique state-of-the-art analytical research facilities, e.g. Spectrum, which house multi-user analytical instrumentation. The Faculty of Science is fully committed to having a positive and noteworthy impact on the global community in terms of research, innovation, teaching and service.

Extended programmes will only consider new first-time entering candidates for admission, these are candidates with no previous studies from a Higher Education Institution.
